The Honorable Kevin McCarthy  
Minority Leader  
U.S. House of Representatives  
Washington, DC 20515

Dear Majority Leader Schumer, Minority Leader McConnell, Speaker Pelosi and Leader McCarthy:

The Patients & Providers for Medical Nutrition Equity, a national coalition of 45 patient and provider organizations that represent individuals for whom specialized nutrition is medically necessary for treatment of their digestive or inherited metabolic disorder, **write to share the attached petition calling on you to include the *Medical Nutrition Equity Act (MNEA, S. 2013/H.R. 3783)* in any end-of-year legislative package.**

Approximately 2.7 million Americans have one of the diseases or conditions included in the *Medical Nutrition Equity Act*. As noted in previous communication to you, the on-going formula shortage has highlighted the necessity of these formulas for the children and adults who rely on them for both treatment and sustenance. These formulas are not discretionary for patients with GI and metabolic disorders; they are a necessity. We encourage you to visit [nutritionequity.org/states](http://nutritionequity.org/states) to read stories about the need for this legislation.

The importance of improving access to medically necessary nutrition for patients with GI and metabolic disorders was included in the White House's recently released National Strategy on Hunger, Nutrition and Health. Congress has also recognized the importance of improving coverage of medically necessary nutrition by including language similar to the *MNEA* in the 2016 *National Defense Authorization Act* for TRICARE beneficiaries. The out-of-pocket costs for specialized formulas and foods to treat GI and metabolic disorders can reach thousands of dollars per month, and, for many patients and families, cost is a barrier to access and treatment. It is time to extend coverage to other insured populations and to ensure that there is a federal coverage floor.

For nearly a decade, members of the Coalition have fought tirelessly to improve access and coverage of medically necessary formulas and foods for patients with GI and metabolic disorders. On behalf of these patients and those who care for them, we respectfully request you extend the coverage you have already enacted for TRICARE so that more can have access to the medically necessary nutrition that is life sustaining and essential for the treatment of their conditions. Please do not end the 117<sup>th</sup> Congress without taking final action on this important legislation.

Thank you in advance for your consideration of our request. Please contact Megan Gordon Don at 202.246.8095 or [mgdon@mgdstrategies.com](mailto:mgdon@mgdstrategies.com) if you have any questions or need more information.

**December 19, 2022**

**Dear Leader of the 117<sup>th</sup> Congress:**

On behalf of the approximately 2.7 million Americans who have one of the diseases or conditions included in the Medical Nutrition Equity Act (S. 2013/ H.R. 3783) or who care for patients with one or more of these diseases or conditions, we call on you to pass the bill THIS YEAR. Extend the coverage you have already enacted for TRICARE so that more in our community can have access to the medically necessary nutrition that is life sustaining and essential for the treatment of their conditions. Please do not end the 117th Congress without taking final action on this important legislation.

**Signed by 1,074**
